

Final Report for Team: NoFreeLunch

Using the following scoring metric

$$\text{score} = 2 \left(\text{accuracy} - \frac{1}{2} \right)$$

Your teams score was 0.14999999999999999.

Presentation comments

- nan
- Assumptions and workflow was very well presented.
- Good explanations for imputations and Viz of plots. Collinearity explanation was clear. Plotting of each steps before and after we're clear and useful.
- Energy and humor on the summary. Great explanation of model selection and validation.
