

Final Report for Team: Longhorn Energy Club

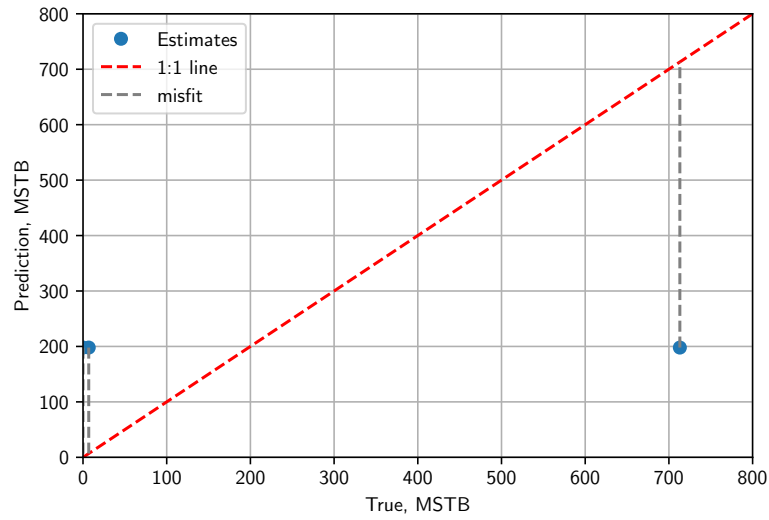

Figure 1: Accuracy.

Fig 1 shows your team's predictions compared to the actual production values at 2 years. The mean absolute percentage error with respect to the true values is 65999.05911. The total field production for your well locations is 35596953.97.

Presentation comments

- nan
- nan
- Good presentation! Good collaboration.
- Good setup. Logical and clear visuals. Proximity of wells in solution needs to be explored.
