

Final Report for Team: NoFreeLunch

Using the following scoring metric

$$\text{score} = 2 \left(\text{accuracy} - \frac{1}{2} \right)$$

Your teams score was -0.050000000000000044.

Presentation comments

- why use PCA on a highly non-linear dataset excellent presentation
- A little high accuracy
- nan
- Great slides all around - opening, ML model comparison slide. Good visuals.
- Very clean, clear presentation. Excellent walk through and defense of decisions. Explained results and predictions.

Code review comments

- nan
- nan
- Great use of functions, visualizations. One of the best workflows.
