

## Final Report for Team: gnomercy

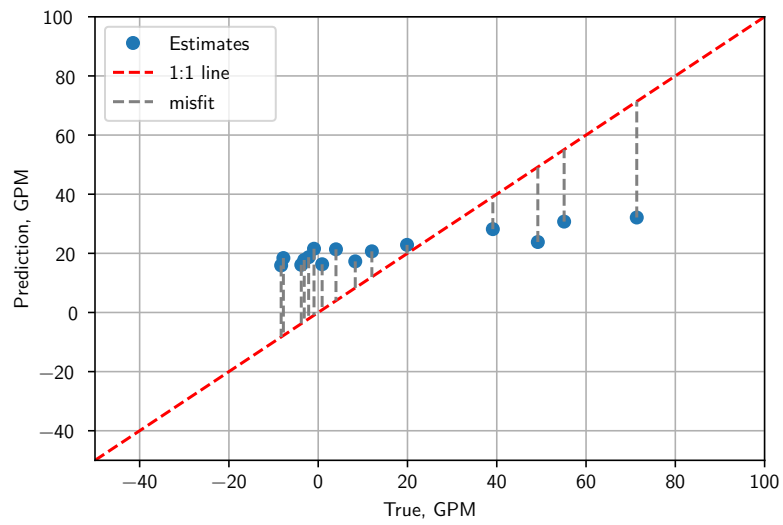

Figure 1: Accuracy.

Fig 1 shows your team's predictions compared to the actual pump difference. The total mean squared error with respect to the true values is 443.099.

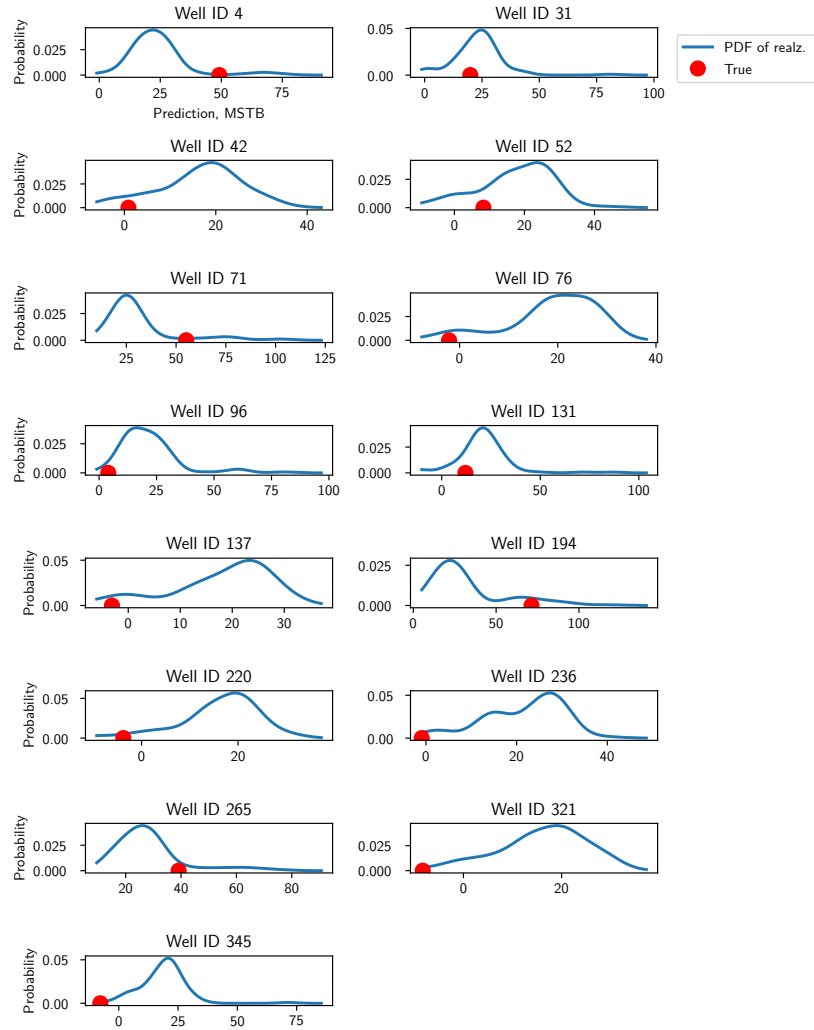

Figure 2: Uncertainty distributions and true values.

Fig 3 shows your team's uncertainty model and actual pump differences for the 15 wells.

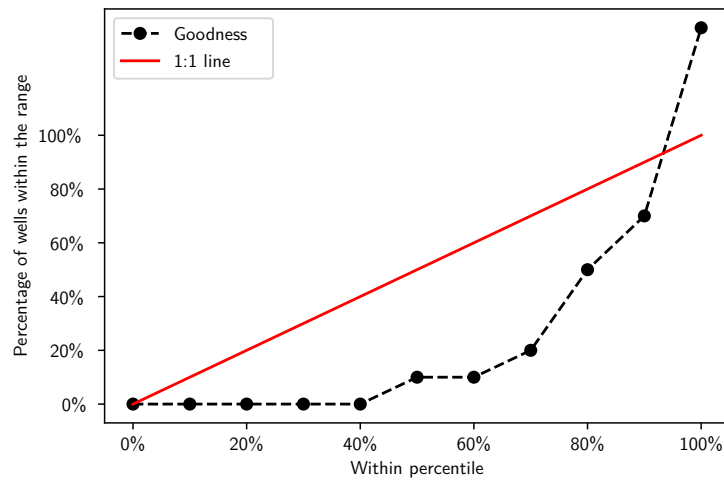

Figure 3: Goodness Score Plot.

Fig 3 shows your team's goodness score plot for the 15 wells. Your final goodness score is 0.428.

## Presentation comments

- nan
- Nice data visualization
- Good ideas on how to fill in the null data sets with values that could help th model!
- liked the way they handed wells with no parent
- Good narrative on thought processes but then almost too brief and nothing about fluids
- nan

## Code review comments

- Prefer to have a single unified workflow.
