## Final Report for Team: The Fantastic Four

Using the following scoring metric

$$score = 2\left(accuracy - \frac{1}{2}\right)$$

## Presentation comments

- demonstrated solid workflow + robust validation pipeline
- nan
- Good Viz of the data Good leverage of different imputation techniques Good sanity check with the imputations

Good validation pipeline Good emphasis on understanding the results.

• Good problem setup. Clean visuals. Excellent presentation overall. Going over model iterations in particular was well done.
